

Center Rear Support is an essential component in a server rack designed to provide additional support to the rack structure. Its function is to maintain stability and structural strength of the rack's additional components.

Center Rear Support typically consists of a vertical beam located in the middle of the interior of the server rack. This beam is usually made of strong and durable materials and securely connected to the main frame of the server rack.

Product Description

Product Type	1U Center Rear Support
Product ID	CRS01
Size	1U
Weight	± 0.110 kg
Dimension (DxWxH)	45 x 80 x 60 mm
Complete Set with	• 1 set M06 (Cagenuts & Screws)
